#### WIGGLING OUT OF THE BET

Mollison's Money Ending the Crisp of Missouri's Money.

The \$4000 Smith county bet is the subject of much comment in Republican circles today.

A telegram was received last night from James Mossman, cashier of the First National bank at Smith Center, saying that J. D. Mollison called his money down at 2 o'clock Tuesday night before the result was known.

Dr. Dykes said he had paid all his bets and because he said Mollison was "all right" he does not think he should be called on to pay his bets.

Capt. J. S. McDowell said to a State Journal reporter this morning: "Jim Mollison had been informed by a telegram of the result about the bet before I reached Topeka yesterday morning, and George Pandey said yesterday that twenty prominent men in Smith Center told him Mollison was a man of his word and would pay his bets. I want to say this because some of the Republicans are blaming me for having said Mollison was all right. I thought he was all right, but so did everybody else until this happened."

State Senator Sterne said: "Those fellows are going to pay that money over or there will be trouble. The man who takes his money down after an election is over, can't be said to act square. I look now as if the cashier of the bank was in on the deal and it was a put-up job to steal our money if the election went their way and save themselves while if the election went against them."

Tweeddale Acting.

He Will Hold the Office of City Engineer.

William Tweeddale is acting as city engineer under the appointment of the mayor, though the appointment has not been confirmed by the council.

At the last meeting the question of his confirmation was postponed, and the indications are that at the meeting of the council next Monday evening they will refuse to confirm the appointment. Unless the mayor will withdraw Mr. Tweeddale's name he will continue to act as city engineer.

A majority of the members are in favor of allowing the position to remain vacant and thus save the engineer's salary and allow the council to do the work during the winter. There is but little for the engineer to do during the winter months and the council favor withholding the appointment until the dull season is over.

The mayor holds that the city engineer must be appointed on the basis of the council in approving plans and estimates may prove illegal. There will probably be a contest between the mayor and council over the appointment.

Gould's Engagement.

It is Said Howard and Miss Tyler Never Broke Their Engagement.

New York, Nov. 9.—The World this morning says: Gossip is revived concerning the reported engagement of Odette Tyler, the actress, to Howard Gould. It will be remembered that the engagement was declared off some months ago, owing, it was said, to Miss Tyler's resenting an objection on the part of young Mr. Gould's family. Now the rumor is afloat that the engagement was never really broken, and that the actress and the millionaire are betrothed as firmly as they ever were.

HOLCOMB GOT 2,600.

The Fusion Candidate in Nebraska Had a Small Majority.

OMAHA, Nov. 9.—Complete returns on governor have been received from all but five counties in the state. They show a plurality for Holcomb (fusion) over Majors (Rep.) of 2,600. The five counties to hear from will increase Holcomb's plurality by about 200.

IT WILL RISE AGAIN.

Senator Martin Says the Democracy Isn't Dead.

WHAT THE ELECTION MEANS.

The People, He Says, Are Punishing the Democratic Conditions, Not Because They Believe in Republican Principles.

United States Senator John Martin is no longer a candidate for re-election and he says he does not feel bad about the result of the election.

To a State Journal reporter this morning he said: "I don't feel bad. Not a bit of it. I believe it was the best thing that could have happened and the Democratic party will be in line again in 1896."

"Everything went to the Republican party this year, and in two years there will be a great Democratic victory. The Republicans have the victory now, and I want them to enjoy it, but they must not think that this means that the people of this country believe in Republican principles. It simply means that the people are dissatisfied with the conditions that exist, and they have as they always have and always will, taken their vengeance on the party in power."

"If an era of prosperity should set in in 1895 and continue into 1896, so that the people of this country will have an opportunity to think calmly and without prejudice, they will vote the Democratic ticket and Democracy will be restored to power. The great majority of the people of this country believe in Democratic principles."

"The Republicans had just such a victory as this in 1893 and again in 1872 and they should not be overjoyed at their victory this time, but I don't feel sure one bit and I hope my Republican friends will enjoy their victory."

"Whether the Republican victory in Kansas means the disintegration of the Populist party and that the members of that party will again join themselves to the Republican and Democratic parties, is a question that no one can answer."

ASK REIDENTIAL FOR A FLAG.

Which Is Generously Furnished by the Good Natured Populist Leader.

Chairman John W. Breckinridge, of the Populist state central committee, furnished the flag which was today hoisted over Republican headquarters.

Yesterday afternoon Chairman Leland made up his mind that the enemy should furnish the flag of victory, and he sent J. M. Simpson and W. E. Sterne to Chairman Breckinridge with instructions to ask for a flag. Chairman Leland said: "We have won in this fight, and it will be only two months until our forces will be in the state house and you (Breckinridge), we think, should furnish us a flag to hoist over our headquarters."

When the message was delivered Chairman Breckinridge said: "That's all right, says. Of course you can have as good a flag as we have" and he escorted his visitors into the adjacent general's office where he supplied them with one of the largest flags owned by the state.

Messrs. Simpson and Sterne carried the flag over to headquarters and it was hoisted on a new flag staff over headquarters today.

PANIC IN MANCHURIA.

A War Levy of \$24 Head Has Been Levied in Hang Kow.

London, Nov. 9.—A dispatch from Shanghai says:

The panic in Niu Chwang and throughout Manchuria continues. Two-thirds of the stores at Niu Chwang have been closed.

Chang Chi Tung arrived in Nankin last evening with the remains of the Viceroy of Luang Ching. A war levy of \$24 head has been imposed in Hang Kow. The people will resist it.

The Fall Mail Gazette prints a Yokohama dispatch saying that the Japanese are laying torpedoes at Port Arthur and are in other ways completing the trap which they have been preparing for the Chinese. Mr. Uchida, Japanese chargé d'affaires in London, said Japan could not accept as an answer to her proposals of reform in Korea, the maintenance of a Chinese army in the peninsula.

The presence of Chinese troops in Korea meant merely a series of horrors such as are now being perpetrated in Manchuria. Japan never meanted China's integrity. She did not intend to break up the empire, and certainly does not wish others to do so. The height of Japan's ambition is to see China consolidated, freed from corruption, prosperous and open to commerce and civilization.

Republican Wins in 11th Kentucky.

MIDDLEBORO, Ky., Nov. 9.—Returns from all the counties from the Eleventh district give Colson, regular Republican, 2,800 plurality.

#### GILROY WILL QUIT.

When He Goes Out of Office He Will Quit Politics and Tammany.

NEW YORK, Nov. 9.—It is said that Mayor Gilroy will retire from politics on New Year's. When he goes out of the mayor's office January 1, he will follow the example of Richard Crocker and depart from Tammany hall. His experience as receiver of the Mitchell-Vance company several years ago, it is said, proved so satisfactory both to himself and to the company, that he has been adverse to breaking away from the political treadmill and to turn his attention to business.

As to his future intention nothing is settled, except that he will take a good long rest the first thing. He may go to Europe with his wife as soon as he gets out of office, but that will depend upon the advice of his physician. His wife's health is not very good, and he will not take her abroad in midwinter against the advice of her doctors. The trip may be postponed until spring or summer.

All Tammany is talking of reorganization. Who shall do it, and how it shall be done, is the question. Under the new constitution the city will be divided into five new assembly districts added. The annual reorganization of Tammany will be put over this year from December to January, and advantage taken of the new districts to get hold of several old leaders.

TRANSIT OF MERCURY.

It Will Pass Across the Sun's Disk Tomorrow Between 10 and 4.

NEW YORK, Nov. 9.—The transit of Mercury, which will occur tomorrow, is causing much interest, not only among college professors and government officials, but among the amateur astronomers as well.

Prof. J. K. Rees of Columbia will take observations of the transit of the different planets. He will be assisted by Prof. T. P. Monell and Mr. H. S. Davis. The main points of contact will be the first external contact, the first internal contact, the last internal contact and the last external contact.

By external contact is meant the exact time when Mercury will first indent within the disk of the sun. The fact that the United States will be the most advantageous place in the world to see the transit has induced the Rev. Samuel Charlesworth, the famous English astronomer, to come to this country.

The transit is scheduled to begin at 5:55 minutes and 42 seconds past ten o'clock a. m. and is due to end at 12 minutes and 7 seconds past four in the afternoon.

One of the interesting features is that one of the interesting features is that observers in the United States have an excellent opportunity to settle conclusively whether Mercury does or does not possess a satellite. If there is one it will be apparent on the sun's disk, above or below or behind or in front of the planet.

THE TAIL STILL WIGGLES

And Says It Is the Dog—Democracy Not Dead, Says Mr. Richardson.

The Democratic state central committee headquarters present a confused appearance today. The documents and books are being packed, and Chairman Richardson has paid his only election bet—a hat that Overmyer would receive 25,000 votes—and will return to Wichita in a day or two.

"The only question in my mind now is," said he, "whether the Populists will be assimilated by the Democrats or not. Democracy is not dead, but Populism is, and whether they will come to us is the question."

"Of course we did not get as many votes as I expected, but there are several things to take into consideration. Our people who did not want the Republicans to succeed largely voted with the Populists, and those who were anxious for the Populists to be defeated voted for Morris, so we got it on two sides, and the vote in Kansas this year is not a reflection of our strength. The Democrats defeated suffrage, and that is enough for one year. We cannot expect everything to come our way in Kansas."

POPULISTS FEEL GOOD.

It is Interesting to Know They Do, Somewhere.

CHICAGO, Nov. 9.—Candidates of the People's Party have issued a circular letter offering congratulations to the members of the party on what they said was a notable victory for them on election day.

The signers say the results in Chicago where they cast 31,000 votes are encouraging.

The letter adds:

"We say to all of our friends and co-workers, be of good cheer. An irrational 'landslide' of the tickle public has taken the reins of government from the hands of the treacherous Democrats and placed them in the hands of a party that in a most pronounced way, stands for monopoly, concentration of class power and the exaltation of those canons of special privileges which can only survive by ruling the public. This makes it the more important that we should at once close our ranks and sound the note of advance."

"We cannot pause if we would. Long before the winter snows have melted the deluded masses who have in this election authorized the further spoliation of themselves by the classes will better understand the meaning of 'Republican prosperity,' and with this further experience, added to the painful experience of the past will be ready, perhaps, to attach themselves to the People's Party—a party that stands for a government of the people, by the people and for the people. Confident in this expectation and conscious of the justice of our cause, we admonish our people to be up and doing for the spring campaign."

Outbreak Feared in Chili.

VALPARAISO, Chili, Nov. 9.—There is intense excitement at Santiago. The late president of the senate is under surveillance, as it is thought he is implicated in the riots. The troops are under arms, fearing an outbreak.

Negro Assaulter Shot.

MEMPHIS, Tenn., Nov. 9.—Needham Smith, a negro charged with attempting the outrage of Mrs. Scramble, wife of a farmer, was shot to death by unknown men in Tipton county, Tenn., last night.

McMillin Goes Back.

NASHVILLE, Tenn., Nov. 9.—In the fourth congressional district Benton McMillin is elected. The American official returns received tonight show his election by 2,500.
